

# L-3000, L-5, L-5R

- High efficiency
- Smart energy saving
- IP67 protection rating
- Exceptional ergonomic design
- Zone 0, 1, 2

*L-5 series adapts to fit a variety of hard hats and helmets*

# L-3000 portable LED torch

The L-3000 torch has been designed to combine efficient lighting with user-selected operating time settings. It features high-performance LEDs, a new built-in dual optic system, a digital monitor showing battery status and a lighting management system, making it one of the most in-demand torch models in the industry.

The distinguishing feature of this torch is the option of controlling lighting based on individual user requirements: there are three different light output presets, allowing you to choose between a 4, 6 or 8-hour operating time. Held by hand or adapted in its holster, the rotating head provides versatility at all times while you are working. Its external clip means you can hang the torch off your belt, jacket or anything else, freeing up your hands.

## L-3000 portable LED torch

*Impact resistance and mechanical strength*

*Battery run time in hours and minutes*

*Revolutionary optics*

*0° / 45° / 90° rotating head*

*Rechargeable batteries*

### FEATURES

#### Torch L-3000

##### Body:

Thermoplastic resin with high impact strength and resistance to extreme temperatures and corrosive substances

##### LEDs:

2 x 135 lm LEDs (total light output 200 lm)

##### Front lens:

Shatterproof clear polycarbonate with built-in dual optics

##### Head:

Rotates to 3 positions: 0° / 45° / 90°

##### Operation:

Operating time of both LEDs can be set to 4, 6 or 8 hours:

- maximum light output > 4hrs
- maximum light output > 6h
- low light output > 8h

##### Operation monitoring:

Digital display located on rotating head indicating remaining hours and minutes of light

##### Operation test:

Warning given in the last 15 minutes when battery charge is running low

##### Switches:

Two ergonomically designed buttons made from a soft-touch material; oversized to ensure ease of use, even with gloved hands

##### Battery:

3.7V lithium ion battery; easy for user to replace

##### Battery charger:

##### Marking:

CE, e9

##### Protection:

IP54

##### Switch off:

Automatic end of charging

##### Charge indicators:

Red LED: charging

Green LED: batteries charged

##### Power supply:

CC:12 V. AC: 100/240 V, 50/60 Hz

##### Types and dimensions:

Single:75x105x60 mm

Battery charger for 3 torches: 205x105x60 mm

Battery charger for 5 torches: 405x105x60 mm

### ACCESSORIES AVAILABLE / SPECIAL REQUESTS

Holster

Battery charger for 1, 3 or 5 torches

# L-3000 portable LED torch

Code	Dimension mm		Light output	Light intensity	Discharge time	Weight kg
	L	Ø				
L-3000	225	70	Tot. 200 lm	15.000 cd	Max. 8 ore	0,5

## MODES

### Switch on

Press button once  
Both LEDs are on, offering diffused light and a focussed beam all at once. At the same time, the display comes on, showing the remaining operating time.

### Diffused light

Press button twice  
Only the LED located behind the optical diffuser is kept on, giving the light beam a wider angle. The special design of the optics means the LED manages to even light the area underneath, near the user's feet.

### Focused beam

Keep button pressed  
Holding down the button for two seconds switches on the LED located behind the focused spot beam optics, setting the torch to booster mode. Power is concentrated in a single LED and the light beam reaches its maximum distance and penetration. Press the On|Off button again to go back to the previous position.

### Strobe light

Menu button  
Holding the On|Off button down for four seconds sets the torch to strobe mode. Using the Menu button, you can select up to five different flashing rates.

### Consumption map

Holding the Menu button down for 4 seconds activates programming mode for setting the torch's operating time and light output. Based on the 4, 6 or 8-hour setting, the electronics automatically adjust the light output level and consequently consumption levels.

# L-5, L-5S and L-5R portable LED torch

The L-5 hard hat torch, L-5S portable torch and L-5R rechargeable portable torch have been developed with the aim of reducing consumption and increasing light quality and output. To achieve this goal, we have fitted the torches with the latest generation LEDs and an automatic system to adjust light output based on input from a sensor. Designed mainly for use on hard hats and helmets, they are accessorized with fittings of various kinds, making them a valuable aid when used in conjunction with the L-3000 portable torch.
